CAREER DEVELOPMENT SERVICES SYSTEM

Career Development Services System (CDSS) is not just another new Job Corps initiative. It is an improved way of doing what we do. Beginning at Outreach and Admissions and continuing throughout training and the 12 month post placement, Career Transition Period, Job Corps personal work together to help all enrollees achieve their professional goals.

Students arrive at Job Corps with different needs and expectations. Job Corps helps all participants develop and realize personal career plans that are best for them. All trainees are potential graduates and are provided with career planning and development services throughout enrollment. All students, regardless of center tenure, leave with increased skills and the feeling that they benefited from Job Corps.

Under CDSS, the Job Corps experience is composed of these stages:

- **Outreach and Admissions (O&A)**
- **Career Preparation Period (CPP)**
- **Career Development Period (CDP)**
- **Career Transition Period (CTP)**
- **Career**

OUTREACH & ADMISSIONS (O&A)

Job Corps begins with enhanced Outreach & Admissions services. OA staff are encourage to create networks with youth development agencies, one stops and other youth service organizations to help reach prospective students. Students who attend an orientation session hear about Job Corps' new comprehensive career development system, from the Career Preparation Period up to the 12-month placement, Career Transition Period. OA staff also use labor market information to help students choose careers that are most appropriate for today's workforce.

CAREER PREPARATION PERIOD (CPP)

The Career Preparation Period (CPP) generally represents students first 60 days on center. Many of the skills that students previously learned during in their last day son center are now taught on the front end during this expanded period known as CPP. During this time, students learn about the life on center, and focus on personal responsibility and social skills. Trainees work on technology and job search skills. Throughout the CPP, students work with staff to map out and commit to a personal career development plan.

CAREER DEVELOPMENT PERIOD (CDP)

The Career Development Period represents the bulk of time enrollees are on center. During this period, students learn and demonstrate vocational, academic, and social skills. This is an opportunity for students who did not graduate from high school earn a high school diploma or GED. Students also learn and practice vocational skills on center and at actual work sites under the direction of Job Corps's employer partners. Students use this time to continue to focus on the communication and problem-solving skills they worked on during CPP. Trainees also begin the job search process and learn how to identify and access support services needed to live independently. Near the end of this period, students are linked with post-center service providers to ensure a smooth transition from center to the community.

CAREER TRANSITION PERIOD (CTP)

The Career Transition Period is one of the most markedly different aspects of Job Corps's new CDSS model. Following initial job placement, Job Corps personnel work with graduated for 12 months to help them move toward stable and productive lives beyond the center. This support may include helping graduates find housing

or health care, linking them with appropriate family services in the area, or assisting them in finding transportation to and from work. Graduates are encouraged to stay in touch with their career development specialists and report back periodically for up to 12 months to ensure they are receiving the support needed to maintain employment.

CAREER

Job Corps graduates are “on the road” to careers with high wages and the opportunity for upward mobility. As a result, they remain productive members of the workforce and their communities for years to come.

a. Hold a public hearing for the expansion of the City's tax abatement program to include vacant lots in areas designated as rehabilitation areas.

BACKGROUND: The Code of the State of Virginia allows a locality to expand the tax abatement program to include vacant lots in designated rehabilitation areas of the City of Petersburg. The proposed expansion gives the City of Petersburg an opportunity to attract developers to the City who can build infill housing and commercial uses to support the neighborhood.

RECOMMENDATION: Staff recommends that Council approve the expansion of the City's Tax abatement program.

Michelle Peters, Director of Planning and Community Development, gave a brief overview of the expansion of the City's tax abatement program to include vacant lots in areas designated as rehabilitation areas.

Ms. Jackson opened the floor for public comment.

Willie Noise, 1508 Circle Drive, stated Happy New Year's to everyone. He stated that these lots that houses have been torn down on and they start growing up and that he wanted to adopt one of the lots. He stated that the location is probably where undesirables hangout. He stated that this is an ideal place to put a picnic table and a trash receptacle so that these same people can come back and enjoy that lot until something is done with it. He stated that he ask that with this plan they throw in picnic table and trash receptacle until something has been done with it.

Vernel Gannaway, 652 Old Wagner Road, stated that he remembers this being the same ward the Dollar General. He stated that he hears the program and that it seems like it is taking out the kids. He stated that they have to remember that this is a big place. He stated that the City has a lot of empty buildings. He stated that the administrative stated that they people are not asking for homes that they are asking for duplexes. He stated that they do not want this to come up that they are building duplexes. He stated that after while the City will end up having projects like he stated on time before. He stated that not to take away from projects but they have their place. He stated that they have not grocery store but they have the Family Dollar. He stated that the Family Dollar will need security. He stated that when he looked in that area he asked himself what homes are in that area. He stated that they are still tearing down homes in that area. He stated that the City is utilizing this program hoping that people will purchase or build single homes. He stated that on the particular lot that was for that gentleman to help the stores a piece of land was voted down by City Council. He stated that is lot was to help the children go forward. He stated that they have to have the entire City to go forward not just one area.

Linwood Christian, 410 Mistletoe Street, stated that in listening to the explanation that Mrs. Peters stated it definitely sounds like a good idea. He stated that they are trying to get the vacant properties to start turning in some money therefore, generating the tax basis. He stated that he is all for this. He stated that one of the problems that he is seeing is in the 5th Ward they have one of the highest concentration of deadbeat landlords in that area. He stated that what is concerning him is that those deadbeat landlords will come in to build a single-family home or something of that nature and it ends of becoming like some of the homes on Halifax Street, Mistletoe Street, and Harding Street that end of becoming rooming houses. He stated that this concerns him because if you go on the registry now that is sent out by the police department that area alone has a high concentration of sex predators. He asked how things are going to be monitored to make sure they do not have someone come put a door on it to keep them off it. He stated that they see stuff not going on and they come to their City Council representative and never hear anything. He stated that he does not hear anything from the Mayor.

Mrs. Peters stated that this is a residential development. She stated that you are talking a one-family, two-family, three-family and a quad. She stated that commercial is not a part of this expansion. She stated that this is residential development homeownership. She stated that this is not rental property. She stated that there are provisions in this ordinance that will guide how a developer who comes in Ward 1, 4 or 5 would acquire the property and construct a single-family development up to a quad. She stated that this has to be a permitted use. She stated that the zoning ordinance governs the design that will be required. She stated that this ordinance does not override the zoning ordinance. She stated that because someone has the ability to

take advantage of this program they cannot use it for a rooming house. She stated that when they do a building permit they will know that it is for a single-family up to a quad. She stated that when you are looking at a building permit you can determine the size and tell whether it is a rooming house or not. She stated that they look at it based on locks. She stated that if you have a key lock or a padlock on the door it constitutes a rooming house before a building permit is permitted. She stated that the City of Petersburg for a number of years had a project where they did demolition on properties. She stated that she always said that a plan is needed to rebuild buildings. She stated that if they are going to continue to demolish they have to have a plan to put back or restore those communities. She stated that this will be a tool that they can use to begin that restoration process.

Richie McKeithen, City Assessor, stated that they built in this particular ordinance to address certain issues and one of them being absentee landlords. He stated that if in fact you do not have an individual for a quad or a triplex in that particular property that has an executed lease agreement to purchase the property in a certain amount of time then you get put out the program. He stated that you have a certain amount of time of three years to get this. He stated that if in fact you get into the program and you do not meet the requirements in the audit process then you will be excused or put out the program. He stated that he audits the program as well. He stated that this is something that they are trying to do to put vacant lots in use and be taxable property. He stated that he thinks that they built somethings in the program that will address some of the concerns in regard to absentee landlords. He stated that the actually property has to be owner occupied. He stated that if they don't occupy one of the units then they have to have a tenant who has an agreement in their lease to purchase the property after a certain amount of time. He stated that if they do not do this then they are put out of the program.

Mr. Gannaway stated that his only other concern is how the program would be monitored.

Mr. McKeithen stated that he has an audit process in which he would have the individual property owner fill out documentation and an affidavit. He stated that there is a lot of information that they have to fill out proofing certain things. He stated that this is how they monitor everything.

Seeing no further hands, Ms. Jackson closed the public hearing.

There was discussion among City Council and staff.

Council Member Coleman made a motion to approve the City's Tax Abatement Program and Ward 1, 4 and 5 would be used as a pilot. The motion was seconded by Council Member Hart. The motion was approved on roll call. On roll call vote, voting yes: Coleman, Hart, Hill, Wilson-Smith, Moore, Parham and Myers

16-ORD-1 AN ORDINANCE TO AMEND CHAPTER 106, TAXATION, TO ADD SECTIONS 106-139, PURPOSE, 106-140, EVALUATION OF EXEMPTION PROGRAM; 106-141, RULES AND REGULATIONS; 106-142, ELIGIBILITY; 106-143, APPLICATION; 106-144, AMOUNT OF EXEMPTION; 106-145, PENALTY, 106-146 LAND BOOK; AND 106-147, DEMOLITION; TO DIVISION IV OF ARTICLE III OF CHAPTER 106; OF THE 2000 CODE OF THE CITY OF PETERSBURG, AS AMENDED.

b. Hold a public hearing to purchase 512 University Boulevard and an easement to the rear of 525 University Boulevard.

BACKGROUND: The City is proposing gateway improvements along this corridor and needs to have control of the property currently owned by CSX. The proposed gateway improvements will change the aesthetics of this important thoroughfare as it welcomes visitors to our great City. A passive park is a feature of the improvements and will be very inviting and interactive for all who visit.

RECOMMENDATION: Permit the purchase of 525 University Boulevard.

Michelle Peters, Director of Planning and Community Development, gave a brief overview on the purchase of 512 University Boulevard and an easement to the rear of 525 University Boulevard.

Ms. Jackson opened the floor for public comment.

Larry Smith, 1151 Normandale Avenue, stated that this was flashed around a little too fast. He stated that he needs to know where these properties are. He stated that it was not clear. He stated that he sees 512 and 525 University Boulevard. He asked would these properties be on the same side of the street.

Mrs. Peters stated that it is near the railroad and then near the trestle.

Mr. Smith asked whether this was across the street with one on one side of street and the other portion on the other side. He asked what the easement would be.

Mrs. Peters stated that the easement would be behind the trestle and that the easement is already there.

Linwood Christian, 410 Mistletoe Street, asked for clarity on purchase.

Mrs. Peters showed Mr. Christian with the laser on the map on the projector.

Mr. Christian asked that the City does not own this now.

Mrs. Peters stated no. She stated that CSX owns it currently.

Mr. Christian asked isn't this area where people are parking now to go fishing. He stated that he applauds Mrs. Peters and her staff for this work. He stated that he has to ask this question. He stated that when they are talking about University's, he stated most University Boulevards have something that relates to the university. He stated that he is wondering why the City is buying this and what is going to be done with it. He stated that they have seen a sharp decline in the students patronizing Petersburg. He stated that he is not sure what visitor is coming thru the gateway in that area other than people that are going in the old town area. He stated that there is nothing that says Virginia State University on University Boulevard. He stated that most of the students are being shuttled to Southpark Mall. He stated that in that area they can say University Boulevard more than the City of Petersburg can. He stated that there are very few businesses that cater to Virginia State University students. He stated that whatever they build there to have it have something that connects to the school. He asked what was the reason of naming the street University Boulevard.

Michael Edwards, 409 Grove Avenue, stated that last year the City went into an agreement with the Petersburg Foundation to take over the park in Squaw Alley. He asked whether this was where the turnaround would be. He stated that when they access the parking lot from University Boulevard and it goes down to the bridge.

Mrs. Peters stated that if she is not mistaken, Squaw Alley is outside this area. She stated that she can check on this information to make sure that it is accurate.

Mr. Edwards stated that the way the picture is shown it is going all the way back to the substation. He stated that there is a boat launch in that area. He stated that in the area where they are hanging out fishing it does not seem like there is enough room right there.

Mrs. Peters stated that the picture that everyone sees is illustration only. She stated that they can scale it and get actual property lines. She stated that this is not the case here though. She stated that all of the property that is developed is currently on City owned property other than what they are trying to acquire from CSX. She stated that nothing is changing and that it will still have the parking and have where people can go and fish. She stated that it is just going to be improved. She stated that it will have a curb appeal that it currently does. She stated that nothing is being taken away from what is currently there.

Mr. Edward asked Mr. Johnson was it 2014 when the City took the property from the Petersburg Foundation.

Mr. Johnson stated that the pavilion will always be as a passive piece of property due to the environmental condition. He stated that it will never be heavy activity use.

Mr. Edwards asked that the properties that the City is getting are where the arcs are sitting.

Mrs. Peters stated yes.

Mr. Edwards asked about the old fish market that is sitting in the corner.

Mrs. Peters stated that it is outside the scope of the property.

Seeing no further hands, Ms. Jackson closed the public hearing.

Vice Mayor Parham made a motion to approve the purchase of 525 University Boulevard. The motion was seconded by Council Member Hill. The motion was approved on roll call. On roll call vote, voting yes: Coleman, Hart, Hill, Moore, Wilson-Smith, Parham and Myers

16-ORD-2 AN ORDINANCE APPROVING THE PURCHASE OF 525 UNIVERSITY BOULEVARD.

8. **PUBLIC INFORMATION PERIOD:** The Public Information Period is established by the Rules of Council to hear input from City residents or owners of businesses in the City. It will last for a maximum of 30 minutes. Speakers will be called in the order that they have signed up to speak. If there are ten or fewer speakers, each shall speak for a maximum of 3 minutes. If there are more than six (6) people desiring to speak, the time allotted to each person may be adjusted or the number of speakers limited to meet the time limitation. A speaker may speak on items **except those that are listed on tonight's Council agenda**. Any matter brought before the attention of the City Council during the public information period will not be acted upon by the City Council at this meeting.

Larry Smith, 1151 Normandale Avenue, stated that something so simple as what they just saw can be complicated when the information is not clear. He stated that he would like to ask can City Council clarify to them what the news article was talking about when it highlighted the thousands of dollars that is being spent to go to the municipal league conferences. He stated that last year he asked about what they got. He asked for the bank for their buck when they sent the City Manager and a Council Member to London. He asked what they got in return. He stated that he was subsequently sent a pack of information from the City Attorney's office and charged a fee for this. He stated that after further discussion and clarity the fee was dropped and they reached an agreement. He stated that from the news article they sent five times as many people to this latest conference as did Colonial Heights by spending a lot more tax dollars. He stated that this would make it imperative that they tell the City what happens at these things and what they get out of it. He asked do they attend and go to a class and what did they learn from the class. He asked how the \$12,000 or \$13,000 from them sending them somewhere benefits the City. He stated that this is all that he was asking last year. He stated that he did not get an answer and that what he got was a charge. He stated that he wants an answer. He asked that when they go to a municipal league conference what is it that they do. He asked did anyone go and not attend one single class. He asked did they just have a \$50 hamburger or did they do something to help benefit the City. He stated that he would like to have a report. He stated that he does not think anyone knows. He stated to have the citizens talk positive about what they are doing. He stated that they cannot do this if they do not know what the City is doing. He stated that he asks what classes they attended and what they got from this. He asked what they brought back.

Linwood Christian, 410 Mistletoe Street, stated that he would like some clarity as well. He stated that he did not know that someone would ask the same questions. He stated that he read the article about the amount of money that was spent at the conference. He stated that it bothered him. He stated that what they went

through with the sheriff it was in the paper about the sheriff attending conferences and spending money and not bringing back a report. He stated that City Council is guilty of the same thing. He asked how this is benefiting the citizens when they are spending money. He asked what the citizens are getting out of this. He asked who put together the "I AM PETERSBURG." He stated that this bothers him. He stated that all that is shown is everyone that does not live in his hood. He stated that there are those of the poor people that are of Petersburg. He stated that they fight for Petersburg and argue as well. He stated that they do not necessarily criticize the City but criticize leadership. He stated that they need to do better than what they are doing. He stated that they do not have ward meetings when they say that they are. He stated that when they try and call City Council Members they do not return phone calls. He asked that with the skating rink gone what kind of negotiating is being entered into with the fire department and others. He stated that he has done his own little investigation and some of the reports and findings that the investigator stated that he found is wrong. He stated that if they want the citizens to be together then City Council needs to do the same thing. He stated that it does not look good when Council Member Wilson-Smith has talked the water bill and sending a letter that it looks like it went on left field. He stated that when Mr. Johnson puts it out there in the paper then everyone wants to stand up like the City Manager is doing something. He stated that Council Member Wilson-Smith took it upon herself to organize the health fair at the bus station. He stated that they go out to the sports complex like it's something new. He stated that this is the same thing with the Juneteenth celebration. He stated when she has spoken or Council Member Hart or others have spoken they are turned off. He stated that this is a bad thing. He stated that this looks like the house representative. He stated that republicans on one side and democrats on the other. He stated that they want the City to be united as one then they need to see if from the leadership.

Delores Smith, 410 Mistletoe Street, asked that when they as citizens bring a concern to City Council why no one gets back with them. She stated that it needs to be some kind of way or in the papers that are on the back table. She stated that they can let them know that they are working with the people and the citizens. She stated that maybe she is wrong and maybe they do get back with the citizens and she does not know it. She stated that this is very important and that this is why the citizens are here. She stated that she hears all the time when people come out to the City Council meetings that City Council is not going to do anything. She stated that she would like to know if City Council has been investigating this thing with the skating rink. She stated that this was a question. She stated that the skating rink is a good activity for the young people in the City of Petersburg. She stated that she thinks that the owner was wrongly accused and that things happen. She stated that she does not think that she should be accused. She stated that it should have been more investigation on what happened with the skating rink owner. She stated that she believes that if this was a white person then it would have been much more said and done about it. She stated that she wishes that City Council would get on this and find out what it going on with the skating rink. She stated that the owner has spent most of fall her money opening up this business and that it is a good business. She stated that it is bad that the City has some bad eggs. She stated that they need to fix the problem. She stated that they do not need to go to the person to own the business. She stated that there are some things that they found out that needs to be investigated. She stated that she is wondering whether City Council will find out what is going on with this. She stated that she wishes everyone a prosperous New Year coming in.

Michael Edwards, 409 Grove Avenue, stated that he stands before them in a new year. He stated a New Year in positive Petersburg. He stated that they may say why positive with all the negative statements that they hear. He stated that they begin this journey in 2016. He stated that they should not forget the good things in 2015. He stated that they opened a new on site medical center at the Freedom Support Center. He stated that the City progressed on the "I AM PETERSBURG" campaign. He stated that whether people know it or not google does wonders. He stated that the "I AM PETERSBURG" has reached all the way to the west. He stated that they announced plans for Petersburg first brewery. He stated that they completed the clubhouse at Dogwood Trace Golf Course. He stated that also just right before Christmas they were blessed with the multimillion dollar announcement of a hotel at Exit 52. He stated that this was a long awaited development. He stated that it was stated in the press conference that well over a hundred thousand cars travel I-95 a day to come through the City. He stated that this number increases as the holiday approach. He stated that not everything is negative in the City of Petersburg. He stated that he grew up in the City and has lived on the same street for 29 years. He stated that he is now 30 and that he moved away for one year. He stated that his grandfather was a deputy sheriff for many years and that his grandmother was the school crossing guard for

Peabody Middle School. He stated that they may say why come and speak positive on Petersburg when he has done his fair share of negativity. He stated that he will be the first to admit that they have had a lot of negative things go on. RE: Schedule a Public Hearing for the Consideration of establishing a Tourism Zone.

PURPOSE: The purpose of the Downtown Petersburg Tourism Zone is to facilitate the establishment and growth of businesses that 1) increase capital investment and create jobs, 2) increase the inventory of tourism-related businesses, and 3) enhance public amenities, attractions, and revenue.

The Virginia Tourism Corporation manages two funding opportunities that are available to entities or projects located within a designated Tourism Zone: Tourism Development Financing Fund and Virginia Tourism Growth Fund. Both funds result in filling tourism product void and increasing visitor spending, tax revenue, and jobs. Both funds involve matching investments from the locality where the project will be developed.

REASON: A public hearing must take place prior to the establishment of a Tourism Zone.

RECOMMENDATION: Staff recommends City Council schedule a Public Hearing on February 2, 2016

BACKGROUND: Virginia Code authorizes Virginia localities to establish, by ordinance, one or more tourism zones for the purpose of granting tax incentives and providing regulatory flexibility to qualified businesses. PURPOSE: To approve a resolution requested by Virginia's Retreat to apply for nonprofit status.

REASON: Petersburg is a member of Virginia's Retreat, established 1993 to promote tourism in the region. All participating member government entities have been requested by Virginia's Retreat to provide a resolution in support of its efforts to apply for nonprofit status. The pursuit of nonprofit status for VAR has been researched and has been shown to be a potential benefit to the work of the organization. Such status will allow for avenues of funding to be expanded, thereby allowing greater attention to the marketing effort and by expansion bringing in more visitors to the region with an increase in spending by visitors providing revenues to the localities.

RECOMMENDATION: Staff recommends approval. The majority of the counties involved in Virginia's Retreat have already passed the resolution of support at their recent Board meetings.

BACKGROUND: In 1993 the counties of Amelia, Appomattox, Buckingham, Cumberland, Dinwiddie, Nottoway, Prince Edward and the City of Petersburg came together to better promote the region's tourism assets. Representatives from each county joined forces with the Virginia Tourism Corporation, the Virginia Division of State Parks and the National Park Service to design a regional approach and, out of this collaboration came Virginia's Retreat and the development of the Lee's Retreat trail and the Civil Rights in Education Heritage Trail®.

The Virginia's Retreat board of directors, recently completed a two year strategic planning process one of the recommendations of the strategic plan was that the Board of Virginia's Retreat should apply for nonprofit designation in order to fund raise, receive corporate donations, apply for more grant opportunities to increase to a higher level the return on investment so that Virginia's Retreat can increase the marketing activity for the region.
