c. Presentation on City Partnership with Schools.

**BACKGROUND:** The City Partnership with the Schools is an interagency collaboration co-chaired by the Superintendent and City Manager. The partnership has brought together schools and City agencies with the shared goal of increased student attendance. Because some of the challenges facing Petersburg require additional political, human, or financial resources, the Virginia Governor's Children Cabinet, and its respective state agencies, is collaborations with the Partnership at the direction of the Superintendent and City Manager.

To realize the goal of improved attendance, there are five work groups co-led by a state and local leader:

1) **Healthcare**

a. To improve sustainable access to high quality physical and mental healthcare for Petersburg students so they come to school ready to learn.

2) **Nutrition**

a. To increase access to healthy year-round food for Petersburg children and families

3) **School Climate**

a. To transform students' systems of social and emotional support so they come to school ready to learn.

4) **Housing**

a. To create a sustainable system to rapidly identify homeless (or at-risk of homelessness) students and stabilize vacations.

5) **Out-of-School Opportunities**

a. To reduce holiday associated stress through positive resources for students and families over school vacations.

The partnership is governed by a Steering Committee comprised of the Mayor, City Manager, School Board Chair, Acting Superintendent, Police Chief, Health Director, Parent representative, Faith Leader Representative, VDOE Chief Academic Officer, Children's Cabinet staff, VDOE Research Director, and VDOE Director of Student Services.

**RECOMMENDATION:** The City Partnership with the Schools would like the City Council to acknowledge, support, and advocate for this initiative to be a longstanding collaboration that will galvanize City and school agencies to work together to improve the lives of Petersburg's children.

7. **OFFICIAL PUBLIC HEARINGS: (In accordance with the Rules of Council, public comment will be heard before discussion by Council. Once discussion has started, no further input from the public will be accepted. Each speaker will be limited to three (3) minutes.)**

- a. A public hearing for consideration of proposed uses of CDBG funds for 2016-2017.

**BACKGROUND:** Petersburg, Virginia is an entitlement jurisdiction for the annual receipt of CDBG funds from HUD. This requires the submission of the Consolidated and Annual Plan for proposes used of the funds to be received in FY2016-2017. Funds may be used to address one or more of the three national objectives for the program: Benefit of low and moderate income persons, aid in the prevention or removal of blight or urgent needs.

On the local level a request must fall within one or more of the priorities established by City Council to be considered for funding. The local priorities are:

**1<sup>st</sup> Priority** – City projects that support the City's Revitalization Strategy for the stabilization and/or enhancement of its residential and commercials environments and may encourage further investment by others. These projects may include infrastructure projects/drainages, streets and roadway improvements, sidewalks, curb & gutter, and streetscapes, residential rehabilitation and others.

**2<sup>nd</sup> Priority** – Public facilities that support the City's Revitalization Strategy for the stabilization and/or enhancement of residential and/or commercial environments and may encourage further investment by others. These may include facilities owned by private not for profit agencies open to the public. These may include recreation centers, tennis courts, ball fields, museums, theaters, health clinics and others. This category does not include program activities which may be operated at these locations

**3<sup>rd</sup> Priority** – Planning activities of a general planning nature which is not directly related to a project, such as a playground, recreation center or any capital project. This category would include strategic planning, preparation of a comprehensive plan, neighborhood plans, commercial development plans, visioning plans, revitalization plans and others. Planning activities are subject to the HUD statutory 20% cap for administration & planning. Because the City uses most of these funds for administration, little is available for this purpose.

Project related planning is eligible as a project cost, but must be specific such as planning for the development of a playground or neighborhood center. Because eligibility is based on the end use of the funds, planning for a project, in and of itself, is not eligible unless the project is built or constructed.

**4<sup>th</sup> Priority** – Public Services which may include City or private non-profit services to low and moderate income persons or families. These may include services for the elderly, youth, the homeless and others. This category is subject to the HUD 15% cap. In addition, because the City's costs for administration and planning are capped at 20% this policy applies to the use of funds for public services as well. In addition, these funds are not available on an ongoing operational basis.

\*Table attached to City Council agenda packet.

**RECOMMENDATION:** Following a duly advertised public hearing, Council may affirm staff's recommendation; make changes to staff's recommendations or table for further consideration.

Michelle Peters, Director of Planning and Community Development, gave a brief summary on the public hearing.

Ms. Jackson opened the floor for public comment.

Willie Noise, 1508 Circle Drive, asked whether the priorities are divided out of the total amount of money that is allocated.

Mrs. Peters responded yes.

Mr. Noise stated that he was also wondering that in "Priority 3" where there was one applicant, what advantage would this be for "Priority 1" where there was several.

Mrs. Peters stated that it does not have to be an equal division. She stated that the priorities are there to guide the allocations. She stated that there was only one applicant in "Priority 1" then they would consider what their request is and give consideration for the others uses based on the applications. She stated that it is not an equal division of the resources based on the priorities.

Leonard Curry, 2014 Woodland Road, stated that there are plans underway to deal with restoration of properties on Harrison Street. He stated LISC in Richmond and APVA and some other groups are trying to work with private investors to repair some of the properties there and make them available for low-moderate income people. He stated that he would hope "Priority 3" would be allowed to be open to the LISC and APVA program.

Mrs. Peters stated that she is part of the initiative that is being spoken of. She stated that they have covered this under program one and that their development on the City of Petersburg has been Project Homes. She stated that they have put in as part of their money to do rehabilitation. She stated that it is \$50,000 for the initiative that is being spoken about.

Brandon Martin, 1546 Berkeley Avenue, stated that he has a question in reference to the program in terms of how or why the Jarrett House restoration does not appear anywhere. He stated that the City has owned this property for many years and that it is in dire straits. He stated that the structure reports are what happened to the back wall that collapsed about six or seven years ago. He stated that this comes from the building being ignored. He stated that the nothing physically has been done to the building. He stated that about 12 or 13 years ago funds from this program were used to stabilize and restore the two-story brick building behind Peabody Middle School on Lee Avenue. He stated that he submits that the Jarrett House is equally qualified to receive the benefits of these funds.

Mrs. Peters stated that she shows the enthusiasm that Mr. Martin shows for the Jarrett House. She stated that in last year's approval of the allocation of funds for CDBG the Jarrett House was a program that was funded. She stated that it was \$200,000. She stated that they have started using this and obtained the restoration reports that they needed. She stated that they also applied for a grant to also help them to develop the program for the Jarrett House. She stated that they are under way of getting the revitalization for that property with money that they have on hand.

Linwood Christian, 410 Mistletoe Street, stated that he is one of the few citizens that believe that when organizations are asking for money they should be organizations that are not just ones that a few people in the community are familiar with. He stated that there were a lot of organizations but that there are a couple that he is glad that are being considered for funding. He stated that one being Serenity. He stated that whether they would like to believe it or not they are talking health and wellness in the City of Petersburg in the Crater Health

District. He stated that Petersburg still leads the pack in regards to HIV infection and STD infections. He stated that this is a service that is definitely needed. He stated that in light of the fact that the young people in the City have really no outlet. He stated that the Harding Street Recreation Center does not exist anymore. He stated that he gives credit to those who have opened up the Blandford Community Center. He stated that whether some of them know it or not it has made a tremendous change. He stated that he would like for City Council to consider giving some funding to Blandford Community Center. He stated at least those young people have what the young people in his area no longer have on Halifax Street. He stated that if there is any service that the poor people need is the police service walking the streets. He stated that he can say this about the City's police officers. He stated that the City does not have police officers that stay in the news negatively for shooting black people, beating up old people and kicking homeless people. He stated that they may not have the best police department but they do have a police chief who works with the community.

Vernel Gannaway, 652 Old Wagner Road, stated that he would like to piggyback off what Mr. Christian just stated. He stated that being a citizen of the City of Petersburg, he is hearing a lot of good priorities. He stated that he has always been recruited for having things for the young children and all these different things and programs to enhance the City. He stated that he wishes that he can toot the horn to some of the friends that can encourage different activities that the City used to have. He stated that he comes up old school and that they had a lot of different things. He stated that when this type of funding's come around they should encourage people regarding this. He stated that there are students and children in the City with all backgrounds.

Karen Graham, 402 High Street, stated that she hopes that City Council would support staff recommendations of funding the Main Street Program. She stated that she thinks that this is very important to bring this program back on line for the City. She stated that she had questions. She stated that there is no funding for the parking deck feasibility. She stated that downtown is and will be in need of a resolution to parking problems. She stated that there are a lot of new apartments that are coming online and that businesses need to have access to convenient parking for their customers. She stated that the City already gave away parking to the area adjacent to the Arnold Pen building which forced customers that are coming to Sycamore Street further away. She stated that they would like a better explanation to items that are included in "Priority 1" regarding Project Homes. She stated that Mrs. Peters did state that \$50,000 was for the LISC work on Harrison Street. She stated that with regard to "Priority 1" Rebuilding Together, she was involved when it was called Christmas in April. She stated that the project was near and dear to her heart. She stated she was disappointed when it went from Christmas in April Petersburg to Rebuilding Together Petersburg and then to Rebuilding Together Tri-Cities and now it is merged with Richmond. She stated that she would hope that there is assurance that the proposed \$23,800 will be used to fund the residents home in Petersburg and that none of the funds go to administrative cost that may be taken out by Rebuilding Together Richmond.

Mrs. Peters stated that Rebuilding Together has given 100% of its money to housing renovations and nothing for administration. She stated that they do not do administrative cost for them. She stated that Project Homes has been their revitalization arm and that they spend between \$10,000 and \$12,000 on renovation of properties. She stated that the Cameron Foundation works with Project Homes to do the ramps. She stated that they have found a way to collaborate to get additional funding to additional work. She stated that it does not come from any of the monies that they receive. She stated that this is how that portion will work. She stated that Project Homes already has the template for screening applications and intake. She stated that they do not have to use their staff for that part of the initiative that they are collaborating with the Cameron Foundation on to do renovation in the Poplar Lawn historic districts. She stated that the reason that this area was selected was because they had an in-kind donation of a report that was done that talked about the conditions of the homes in that community. She stated that the Cameron Foundation had stated that they wanted to put more monies into brick projects. She stated that they approached them and that when they came to the table they talked about this as an initiative. She stated that the goal is to move around in different parts of the City. She stated that the Comprehensive Plan talks about revitalization in the communities. She stated that the Blandford Community Center is not the center for the young people or kids. She stated that it is not the recreation center. She stated that the application was for the Blandford Community Center as a part of the cemetery. She stated that this is out of cultural affairs. She stated that this is in reference to the Blandford Center which is the reception area at the cemetery and not the community recreation center in the Blandford

Community. She stated that when you talk about community policing you cannot CDBG funds to support police efforts. She stated that you can use CDBG funds for direct services but not for policing in that manner. She stated that they had to prioritize it based on the priority and that they also had to list it based on the application that they received. She stated that there was also a question in regards to the parking deck. She stated that the Planning Department is looking at this out of their department and not out of CDBG funds. She stated that once they got to sort the money out they figured that they may be able to identify another source of funding for that.

Seeing no further hands, Ms. Jackson closed the public hearing.

There was discussion among City Council and staff.

Council Member Coleman made a motion to reduce the Petersburg Mobile Market funds and give the \$14,600 to the Salvation Army Men's Shelter. The motion was seconded by Council Member Moore. - b. A public hearing to approve the application to vacate right-of-way of property adjacent to East Washington Street.

**BACKGROUND:** The subject right-of-way application meets the requirements of the applicable City policy, and has been reviewed and approved by the appropriate City departments.

**RECOMMENDATION:** Recommend Council approve the request from Travis Hill, on behalf of Jazz Barber & Hairstyling Academy, that the following described property be vacated, and abandoned by the City Council of the City of Petersburg:

Property adjacent to 1024 East Washington Street, an unimproved public right-of-way Tax Parcel 013-01-0801.

Daniel Harrison, Interim Director of Public Works, gave a brief summary on the public hearing.

Sandy Young, representative from Jazz Barber & Beauty School, spoke on behalf of the school.

Ms. Jackson opened the floor for public comment.

Linwood Christian, 410 Mistletoe Street, stated that he knows what it is like trying to get a post-secondary education. He stated that it is really tough especially when you are paying out of your own pocket. He stated that currently he is doing the same for a 20 year old that is a freshman at Virginia State University. He stated that he knows what it is like to want to go somewhere and cannot because you have to pay student loans and everything else. He stated that he would like to say that what the young lady spoke about is somewhat reminiscent of what the Third Baptist Church went through. He stated that when they moved to their

present location and they obtained their property and they were maintaining a certain piece of property as well. He stated that they ended up having some issues come up. He stated that he would say this to council that a lot of times they have given away properties to persons who have done nothing with them. He stated that some of these people have even flipped the properties and made a profit. He stated that he would say let the school have the property and that they have maintained it.

Willie Noise, 1508 Circle Drive, stated that he was looking at the draft and that when you turn the corner he could not tell how far the street when back past the shady deal. He stated that they should remember that shady people are Petersburg citizens. He stated that he heard that they stated two adjacent properties were the people that they checked with. He asked about the people that live in the neighborhood. He stated that they should check with everyone in the area before a decision is made.

Mr. Harrison stated that the process only requires them to notify adjacent properties which would be the properties to the left and right of the property.

Ms. Young stated that she did go out and talk to all the neighbors that she could reach and that they stated that they did not have any problems with what they are doing. She stated that she wanted to make sure that there was not any discomfort. She stated that they too would like to see something done with the property. She stated that there is a fence around it and that this is where all the activity is going on. She stated that the individuals scatter pretty fast when they see people come around or out. She stated that they support the people and children that attend the Blandford Community Center and that they give them discounts on haircuts as well.

Seeing no further hands, Ms. Jackson closed the public hearing.

Council Member Hart made a motion to vacate and abandon by the City of Petersburg, the property located at 1024 East Washington Street. The motion was seconded by Council Member Wilson-Smith. **BACKGROUND:** The former Fort Lee Regency Hotel located at 380 East Washington Street, has been vacant since 2010. The City of Petersburg acquired the property in 2014 and 400 East Washington Street is the current office for Economic Development. A letter of intent for purchase of the properties was approved in August of 2015. In December, Developer C. A. Harrison Companies, LLC along with Commonwealth Architects announced the design of a new hotel and mixed-use development at 380 East Washington Street.

- d. A public hearing to amend City Code 50-111; 116; 131 to remove the term "cash escrow."

**BACKGROUND:** We have received check and the City is not able to cash the check because the contractor does not have the funds available or the check has become stale dated and the City cannot submit the check for payment.

**RECOMMENDATION:** Recommend City Council permit the deletion of the term "cash escrow" from our City Code and therefore, all contractors will be obligated to provide the City with a performance bond or an irrevocable letter of credit. He stated that the General Assembly has not seen fit to remove "cash escrow" from the state code. He stated that cash is cash and that a check is a conditional payment. He stated that if the City decides to accept a check instead of cash and then there is a problem down the road then this is there problem. He stated to mess with the language that comes from the Code of Virginia is a mistake. He stated that he thinks that the policy needs to be understood and that cash means cash and not a check. #### **10. CITY MANAGER'S AGENDA:**

Ms. Belton stated that she is going to go a little off the market of the City Manager's Report. She stated that she has talked with staff in regards to updating the format for the future. She stated that the high priority area that they are continuing to look at is utility billing, finance and budget, economic development and also accountability. She stated that she will meet with anyone if they would like for her to reiterate the water billing process. She stated that one of the issues that they are currently taking is the estimation, actual and automation. She stated that in order to get to the actual process they just completed last week the complete reading of the 12,000 meters across the City. She stated that they have now created a baseline. She stated that the baseline is the first odometer reading. She stated that in order for them to get the actual number they must come back at 30 days of usage. She stated that in the meanwhile they will not be able to get an actual bill until 30 days. She stated that these are the reasons for the next two billing cycles showing estimated readings. She stated that some of the issues with the estimated bills were the template being pushed over from the old billing. She stated that in the format the City will control the printing themselves to where they went to an outside vendor. She stated that this caused issues within itself. She stated that they had to come down to restructure how they send out bills as far as the format. She stated this issue gave them a hiccup with the date of April 25<sup>th</sup> bill due date. She stated that the bill was supposed to be printed and gone out the week of March 22<sup>nd</sup>. She stated that this would have given them the 30 days to turn the bill in. She stated that right now the bill is anticipated and that they touched every bill and looked at the numbers. She stated that they hope to have them printed. She stated that they are waiting on some of the older printouts to come in. She stated that they would hope to get this in the mail by Friday. She stated that they have talked to the citizen with regards with fixed income. She stated that the date has been extended to May 2<sup>nd</sup>. She stated that they are willing to work with all customers as they go through this transition period. She stated that she talked a little about the actual process. She stated that this is going to take the 30 days. She stated that they hope for this billing to be no later than June. She stated that the City of Petersburg currently has a contract with the vendor and that they were using the printing contract. She stated that this contractor is out of Maryland. She stated that this is what the outcome of the procurement process yielded for best cost. She stated that in this contract the utility bill was added as a writer to be printed and with some of the problems that they have seen is being able to control the outcome of the bills in which they have already adjusted this. She stated that the printed

bills will be done in the City of Petersburg. She state that she knows that the budget is fast approaching. She stated that they are determining how to improve the current situation. She stated that they have been working with the regional authorities to ensure at this moment that the regional payment plans are established and followed through. She stated that they are looking at short and long term in order to sustain them financially. She stated that they are doing a strategic approach for the FY17 budget process. She stated that she hopes to have the budget in front of everyone forthcoming at the next City Council meeting. She stated that economic development is another huge strategy. She stated that there are things that they developed with the economic development office to make processes more transparent. She stated that they now have a solicited and unsolicited process for proposals. She stated that they are set in place so that they have solicited would be an RFP process. She stated that this would be when they take a complete RFP or procurement process to accept an economic development idea. She stated that the second being an unsolicited in which citizens are allowed to bring ideas through the process and City Council will then look at the ideas for consideration. She stated that are looking for government accountability for performance. She stated that recently this week on Monday they talked through with the department heads on strategic action plans. She stated that the strategic action plans build on the goal and vision that the City currently has. She stated that this is on the developing measures of each of those. She stated that with the performance measures of each of the department is to move the levels that they have set. She stated that if this doesn't occur and they see the level go one way and if it goes through right it will go the correct way. She stated that she has done this process for the Governor of Virginia and Secretary of Transportation in which all were successful. She stated that they will be able to measure the process in the City of Petersburg.

2. Is there a plan to develop existing housing properties rather than acting on new development?

## Ordinance, Resolution, and Agenda Request

**DATE:** April 21, 2016

**TO:** The Honorable Mayor and Members of City Council

**THROUGH:** Dironna Belton, Acting City Manager

**FROM:** Michelle B. Peters, Director of Planning & Community Development

**RE:** **A public hearing for a Special Use Permit pursuant to Article 23, Section 4(23) of the Zoning Ordinance to operate a stand-alone vehicle repair and body shop, subject to certain terms and conditions at 3022-A South Crater Road, T.P. 081-04-0807. The property is zoned B-2, General Commercial District.**

---

**PURPOSE:** To hold a public hearing to receive citizen comment on a request for a special use permit for a stand-alone vehicle repair at 3022-A South Crater Road.

**REASON:** Council is required to schedule and conduct a public hearing, upon receiving a recommendation from the Planning Commission, before it takes legislative action on a special use permit.

**RECOMMENDATION:** Following a duly advertised public hearing, Council may affirm the Planning Commission recommendation, overturn the Planning Commission recommendation, table for further consideration, or return the item under consideration to the Planning Commission requesting further review. The recommendation of the Planning Commission was to deny the special use permit request with a vote of 7-0.

**BACKGROUND:** The property was recently vacated by Jamie Holman (JCS Auto Center) who operated his automotive business at this location since 2003. Mr. Holman recently moved to 946 East Wythe Street which was a special use request approved by Planning Commission and City Council last year. This property was originally built and used as the Crater Glass Shop. In 1991 additional development was constructed to the rear of the property and contained a building with 8 residential apartments. The subject parcel has frontage along South Crater Road of 100 feet. The proposed automobile repair business will use the existing three bays, and would be limited to that area as the front part of this building is leased as an office and independent of this request.

The automotive repair business is permitted at the proposed location with the approval of the Planning Commission and City Council.

Staff met with the applicant and shared the conditions that would be a part of staff's recommendation. This will help us to maintain an appealing corridor; although the use is permitted and the area is appropriate for this type of use; we still want conditions to govern the operation of the automotive business.

## **CITY COUNCIL STAFF REPORT**

**SPECIAL USE PERMIT– CASE 16-SP-02**

**Ivan and Debra Nealy**

**PUBLIC HEARING: May 3, 2016**

### **Request:**

Ivan and Debra Nealy is requesting that a special use permit be issued for a stand-alone vehicle repair business, subject to certain terms and conditions; be located at 13022-A South Crater Road.

### **Project Summary & Background Information:**

The property was recently vacated by Jamie Holman (JCS Auto Center) who operated his automotive business at this location since 2003. Mr. Holman recently moved to 946 East Wythe Street which was a special use request approved by Planning Commission and City Council last year. This property was originally built and used as the Crater Glass Shop. In 1991 additional development was constructed to the rear of the property and contained a building with 8 residential apartments. The subject parcel has frontage along South Crater Road of 100 feet. The proposed automobile repair business will use the existing three bays, and would be limited to that area as the front part of this building is leased as an office and independent of this request.

The automotive repair business is permitted at the proposed location with the approval of the Planning Commission and City Council.

Staff met with the applicant and shared the conditions that would be a part of staff's recommendation. This will help us to maintain an appealing corridor; although the use is permitted and the area is appropriate for this type of use; we still want conditions to govern the operation of the automotive business.

### **Existing Uses and Zoning:**

The adjacent property to the south has an auto loan office and is zoned B-2, the property to the north and west is an office and public storage facility and has an M-1c zoning designation. The parcels to the East are zoned B-2 and PUD (Planned Unit Development).

### **Comprehensive Plan:**

The Comprehensive Plan identifies this area as a commercial corridor of the City of Petersburg.

### **Public Input:**

There has been no public input as of the writing of this staff report.

### **Recommendation:**

Staff recommends approval with the attached conditions.

## **City of Petersburg's Proposal for Social Workers in Schools**

### **Background**

Over the past several months, the City of Petersburg and The Petersburg City Schools have engaged into a partnership to address challenges facing our Schools. This partnership was launched as a result of the Virginia Department of Education and The Secretary of Health and Human Resources addressing challenged schools in the Commonwealth.

The City of Petersburg has a high poverty rate. According to the Virginia Department of Social Services' Petersburg Profile Data, 47% of the city's children were living in poverty in 2014. The long-term effects of poverty are evident in many of the statistics describing Petersburg's school achievement. Recent efforts have brought substantial improvements, but school statistics in Petersburg remain well below state averages in many key areas. Truancy rates and suspensions are among the highest in the State, and only one school is fully accredited.

### **Research**

A research study, *Innovative Designs for Persistently Low-Performing Schools: Transforming Failing Schools by Addressing-Poverty Related Barriers in Teaching and Learning* offered The Turnaround for Children model as an example of a solution for high poverty schools. It makes many recommendations resulting in a school culture to address poverty-related barriers. One area that supports this proposal is to institutionalize the role of a school-based clinical social worker.

Research also clearly documents that chronic absenteeism (defined as missing 10% of days in school or 18 days per school year) in kindergarten and first grade negatively impacts reading and math skills by third grade. A survey

commissioned by Attendance Works in California in 2011 suggests that chronic absence in kindergarten and first grade may nearly eliminate the benefits of entering kindergarten with school readiness skills which are associated with success at third grade testing levels. Clearly, making sure that our youngest students attend school every day is critical for the success of our children, our school system, and our community.

Data from the Petersburg Public Schools 2015 – 2016 School Year reveals that there are 650 total students who have experienced 6 or more unexcused absences (Year to Date). A grand total of 205 Students have been “tagged” as truant and have had a truancy meeting. This initiative will target students with the highest truancy rates and those who are chronically tardy, with specific focus on elementary youth and other high risk youth.

### **The Approach**

While there are many transformational models that may be needed to improve student outcomes, the purpose of this proposal is to laser focus in on one area: *Improving School Attendance*. In an effort to alleviate chronic tardiness and absenteeism for students in grades kindergarten through high school, three new Family Services Specialists will be integrated into schools using a data-driven approach. This will be a collaborative effort between the Petersburg Department of Social Services and Petersburg Public Schools.

Students with 4 or more unexcused tardies or 2 or more absences will be referred to a Family Services Specialist by the school social worker, teacher, or guidance counselor at the school. A Step by Step Referral Process is outlined in Appendix A.

The Family Services Specialist will gather information from the school on the student's educational, developmental, medical, social, and behavioral information as well as information regarding family background, interactions and dynamics. The Family Services Specialist will observe the student in the school setting. Following this information gathering and assessment, the Family Services Specialist will meet with the parent or parents/guardian. A comprehensive assessment will be utilized to determine evaluation and service needs. A family service plan will then be developed to address the issues that contribute to the student's chronic tardiness or absenteeism.

Services provided will vary to meet the unique needs of the child/youth and family. Some may be referred for special education evaluations, psychological evaluations, and assessments at the local Community Services Board for eligibility determination for Therapeutic Day Treatment Services and/or In-Home Services.

In addition to the aforementioned services, the Family Services Specialist may refer the child/youth to summer program placements to keep them in structured environments, receiving educational and social skills training throughout the summer months. Parenting classes will be offered at the school for the parent/guardian to further engage with school personnel. The Family Services Specialist will also provide groups for the children in the school setting as needed.

Because the Family Services Specialists will routinely work with the children and families in their homes, they will have the advantage of understanding some of the barriers to school achievement and working collaboratively with school personnel to address them. Oftentimes, some of these same barriers lead to the

separation of children from their families because of concerns related to child abuse and neglect. Exchange of this information serves as a bridge between the child/youth, family, and the school. If our schools are to provide a quality education to all children, we must seriously address the issue of school attendance and alleviate all of the barriers that prevent a child from coming to school on time and being ready to learn. Similarly, the provision of supportive family services and intensive family preservation services, when needed, can also prevent child abuse and neglect and the unnecessary separation of children from their families.

### **Objectives, Outcomes, and Sustainability**

After 12 months of engagement with a Family Services Specialist, students receiving this intervention and support will demonstrate improved attendance and performance at school. Outcome measures for participating students are outlined below:

- Decrease average monthly absenteeism by 10% as measured thru the number of days absent per month compared with three months prior to receiving services and three months after receiving services.
- Decrease the average monthly number of tardies by 10% as measured thru the number of tardies per month compared with three months prior to receiving services and three months after receiving services.
- Decrease the average monthly office discipline referrals (ODR), in-school suspensions (ISS), and out of school short-term suspension (OSS)<sup>1</sup> as

---

<sup>1</sup> Out of school short-term suspension is 1-10 days.

measured thru the number of ODR, ISS, and OSS per month and three months before services and three months after receiving services.<sup>2</sup>

If measurable success is achieved, further identification of additional prevention and early intervention outcomes will be identified to continue to evaluate program impact. Select case studies will also be conducted as a way to capture qualitative information about program experiences.

Virginia Department of Social Services funding support will end by May 31, 2017. Prior to March 2017, quantitative and qualitative information will be used to request the continuation of the three Family Services Specialist positions through the commitment of local funds by the Petersburg School Board. Program progress will be shared regularly between select Petersburg DSS staff, Petersburg City School staff, and members of the Petersburg School Board.

*Activities to Support this Outcome:*

- Students will have a comprehensive assessment to develop a service plan.
- Students will be reconnected with resources to support their school experiences.
- Parents will receive education on the importance of parental involvement through regular meetings and activities.
- Parents will have a comprehensive assessment to develop a service plan and will be connected with community resources as needed.

***Evaluation***

---

<sup>2</sup> Attendance, tardy, ODR, ISS, OSS data is maintained at each school and division wide through a student data collection system.

- (a) Attendance – examine the number of student absences (truancy, chronic absenteeism, unexcused absences) for each student served before and after intervention with a Family Services Specialist
- (b) Discipline – examine the number of student disciplinary actions (number of offenses, suspensions/expulsions, type of offenses) for each student served before and after intervention with a Family Services Specialist
- (c) Services received – requires follow-up on referrals to measure what services parents and students accept
- (d) Service plan goals met – of the needs identified during the service plan, how many were resolved?

### 3. Impact measures:

- (a) Attendance – how does attendance among students receiving services through a Family Services Specialist compared to similar students in the same school who are not receiving services? How does attendance vary based on the level of social work services received (e.g., high/medium/low intervention)? How does attendance vary based on the model of social work services provided (e.g., students in schools with no access to a social worker, students in schools with access to a social worker only, students in schools with access to a social worker and Communities In Schools)?
- (b) Discipline – how does discipline vary among students receiving services through a Family Services Specialist compared to similar students who are not receiving services? How does discipline vary based on the level of social work services received (e.g., high/medium/low intervention)? How does discipline vary based on the model of social work services provided

(e.g., students in schools with no access to a social worker, students in schools with access to a social worker only, students in schools with access to a social worker and Communities In Schools)?

### **The Funding Request**

The City of Petersburg is requesting that the Virginia Department of Social Services assist our locality in securing funding of \$168,255.86 to support this school initiative.

This would fund three (3) new Family Services Specialists, including benefits at \$50,698.62 each. Other costs will include computers, cell phones, and travel. The Petersburg Department of Social Services will provide supervision for the program.

<b>Acronym</b>	<b>Definition</b>
FSS	Family Services Specialist
FAPT	Family Assessment and Planning Team which reviews families' request for services in each locality and makes recommendations for funding.
FEM	A team approach for partnering with family members and other partners in decision making the family's involvement with the local department of social services. The

	meeting is facilitated by a trained individual who is not the services worker for the child or family. The teaming meeting is different from a FEM in that there is not a risk of the child being placed in foster care and the teaming meeting does not require a trained facilitator
CSA	Office of Children's Services
CANS	Child and Adolescent Needs and Strengths (CANS) tools.
CPS	Child Protective Services
DSS	Department of Social Services
IEP	Individual Education Plan
OASIS	Online Automated Services Information System
VICAP	Virginia Independent Clinical Assessment Program is an independent clinical assessment that is completed by an assessor through the local Community Service Boards (CSBs) and the Behavioral Health Authority (BHA)

**Mission:** To deliver quality services to people in our community that will promote self-sufficiency, responsibility, and safety.

**Primary Task:**

- Assess tardiness and absenteeism problems
- Assess family needs
- Develop a service plan for the child and the family
- Participate on multidiscipline teams (IEP, VICAP, FAPT, etc.) for identified child/family
- Provide individual, small group, and family intervention emphasizing the negative consequences of continued truancy
- Help facilitate connections between families and schools
- Provide parent education to family (reading to children, homework frustrations, effective communication with school personnel, etc.)
- Link students and families with school and community resources and follow up when needed

- Visit the family's home, at least monthly, to address factors influencing tardiness and/or truancy

### **Referral Procedures:**

Referrals for services can be made by:

- Petersburg City Public Schools (teachers, principal, guidance, etc.)
- Petersburg Court Services
- Petersburg Department of Social Services (PDSS)
- Parent

Referrals can be made to the assigned Family Services Specialist for the identified school or Petersburg DSS staff. The common identifier for these cases is that the child has 4 or more unexcused tardies or 2 or more unexcused absences.

- Referral source will complete a Smart Start Referral Form (see attached form)
- Referral source will notify the family that a referral was made

### **Assessment Process**

- FSS will contact family within 48 hours of referral
- FSS will schedule an initial assessment with the family
- If FSS is unable to establish contact with the family after three unsuccessful attempts to make contact with the family, FSS sends a letter to the referral source and the family.
- At the time of the assessment, FSS will have the family sign a service application and all needed consents to exchange information for the child and the parents.
- FSS will conduct a home visit during the initial assessment period
- Utilize Team Meetings as appropriate – Important tool in bringing the providers and family together. Best practice is to include parents and child, based on the child's age and maturity level. The meetings needs to be purposeful; there should be an agenda and goal established for the meeting. Examples of when teaming meetings can be held are when there

are multiple agencies involved; when communication is not consistent; to discuss treatment options, especially when FAPT is not involved; and following a crisis

- Cooperate and collaborate with school personnel and community partners throughout the life of the case
- FSS will work with the family to complete a Smart Start Prevention Plan within 30 days following the initial assessment to address concerns
- In all cases, the FSS will ensure that all documentation, including service plan and reviews, are copied and pasted into OASIS

### **Family Engagement Meeting**

When there is a risk of the child being placed in foster care increases, a FEM may be necessary

- Consult with supervisor in regard to the need for the meeting
- It is important for FSS to discuss the purpose and process of the FEM with the family prior to the meeting being scheduled
- Contact a FEM facilitator to schedule the FEM and inform all parties involved of FEM date, time, and location

### **Funding Sources**

School prevention cases can be eligible for funding through the CSA. This option should be pursued after all community and Medicaid resources have been exhausted. Consult with the supervisor prior to referring the case to CSA and FAPT. A CANS must be submitted prior to FAPT date. In some circumstances, Family Preservation or Safe/Stable funds may be used.

### **Closing Cases**

Once the Family Services Specialist and Supervisor have determined to close the case, the worker will:

- Complete OASIS documentation, including case closure summary within five business days or by the last business day of the month

- **Submit the file to Supervisor the day of closure**
- **Communicate with child, family, and school personnel regarding plans for discharge**
